

Document pass-through

Security fittings / Security furniture

Our wide range of document and parcel pass-throughs helps to secure your transactions.

All accessories in the range are available in several finishes.

From the standard model (without specific ballistic classification) to bulletproof models (FB4, FB6 or FB7 depending on the model) with additional fire resistance classification, the range can be adapted to your security needs.

The different models can be integrated into furniture (worktops, counters) or directly into the front of the unit to be fitted.

Detailed description

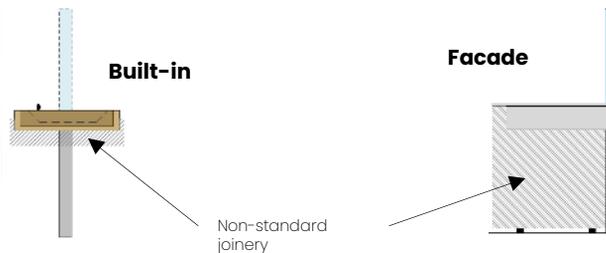

Model	External dimensions (mm) (W x H x D)	Level Bulletproof	Fire-resistant (optional)	Motorisation	Integrated full duplex intercom (optional)	Maximum partition thickness (front models)	Approximate weight
-------	---	----------------------	------------------------------	--------------	--	--	-----------------------

Flush-mounted models

PSD 7010 GP GP = Large Depth	476×240×642						20 kg
PSD 7020	476×62×642						15 kg
PSD 7025	476×144×642						25 kg
PSD 7031	550×82×500	FB4					20 kg
PSD 7032	550×141×500	FB4	EI30 				25 kg
PSD 7032/O	590×199×690	FB4	EI30 				30 kg
PSD 7033	550×194×500	FB4					30 kg
PSD 7036	600×92×780	FB4 FB6 FB7					65–105 kg
PSD 7038	600×195(216)×780	FB6 FB7					70–110 kg

Facade models

PSD 7090	750×260×636					75 mm	35 kg
PSD 7091	876×300×985					733 mm	65 kg
PSD 7097	630×165×615	FB4 FB6 FB7				240 mm	80–125 kg
PSD 7097-I	920×165×615	FB4 FB6 FB7				250 mm	80–125 kg
PSD 7097/O	630×235×685	FB4 FB6 FB7	EI90 			300 mm / 330 mm (EI90)	95–145 kg
PSD 7097/O-I	920×235×685	FB4 FB6 FB7	EI90 			300 mm / 330 mm (EI90)	95–145 kg
PSD 7195	670×178×460	FB4				90 mm	35 kg
PSD 7195/O	630×185×470		EI90 				40 kg
PSD 7196	670×340×492.5	FB4				90 mm	75 kg

Informative note

- To optimise the uniformity of strength in the area where the equipment is to be installed, ensure that the materials into which it will be integrated have mechanical strength and/or bullet resistance and/or fire resistance at least equivalent to the materials used in the safety equipment.
- All models with fire protection must be installed inside buildings.
- It is important to ensure that the equipment can be easily removed for future maintenance.

- Note: if the document pass-through is to be installed on an external façade, it must be protected from the elements.

We recommend installation under a canopy, visor or any other type of weather protection that prevents direct contact with rain. (Excluding Bolloré batch)

Work to be carried out by the customer

- Installation of equipment
