

# ZPR

Perimeter Protection / Security Fencing

You can enhance the security of your outdoor perimeter by installing a ZPR-type protective fence.

## Reinforced Protection Zone

The ZPR perimeter fence is a double-skin industrial mechanical barrier designed to slow down intrusion attempts using heavy cutting equipment:

- 3500W disc cutter
- 1300W reciprocating saw
- 500W angle grinder
- Bolt cutter

The ZPR fence is **certified compliant with the NF EN1630 standard validated by the PSIG**, which aims to determine resistance to break-in attempts for an attack time of more than 3 minutes.

Burglar-proof

Compact solution

PSIG certification

**PSIG**  
certification

## Design

### Posts

- Raw aluminium
- Height 4400 mm

### Bottom infill

Secure side

- Barred grille + integrated 16 mm diameter round bars

Attack side

- Double wire mesh panel Ø 6-5-6

### Top infill

Secure side

- Double wire mesh panel Ø 6-5-6

Attack side

- Double wire mesh panel Ø 6-5-6

### Bavolets

Outwardly sloping

### High clearance

Double concertina 730+450

### Panel width

2500 mm

## Diagram of primary components

### Barred grille

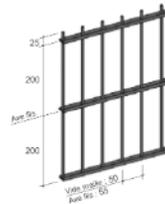

+ Ø16mm rounds

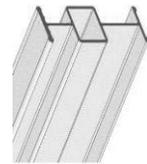

### Aluminium cap

### Double wires Ø 6-5-6

DE LA PROPRIÉTÉ  
INDUSTRIELLE

### Optional equipment

- ZPR gate
- ZPR Gate
- Additional electronic detection
- Integration of a complementary Gard'Active electric curtain
- Specific study

### Work to be carried out by the customer

- Site studies
- Design of the anchoring solution
- Installation of equipment
- Installation of additional accessories (detection, etc.)
- ...
